Projects Experience

All projects where I was part of a team were developed using Agile Methodologies such as Scrum and Kanban, and GitHub as version control.

Remote - *Front-End Developer (Teamwork)*

JANUARY 2022 - JULY 2022
- Develop Front-End using React for a web restaurant application for inventory management, clients, employees and user permissions.
- This was my first project developed using React and the biggest one, the knowledge was priceless.

Remoto - *Front-End Developer (Teamwork)*

JULY 2022 - AUGUST 2022
- Develop Front-End using Reat for a web pomodoro application.
- Unfortunately this project couldn't be finished, anyways we were able to finish an stable version of the application which was achieved with perseverance and left us a lot of knowledge with its development.

Remote- *Front-End Developer*

SEPTEMBER 2022 - CURRENTLY
- Develop Font-End using React for my personal portfolio.

- This is the current project I'm working on and I would like to finish it as soon as possible in order to show the projects I have worked on before.
